2025 COCKTAIL AU PIED DU LIT

MAY 1, 2025

6:00 PM - 8:30 PM

Port of Montreal Tower

200, rue de la Commune Ouest, Montréal

PATIENTS' WELL BEING AT THE HEART OF OUR PRIORITIES

Since 1996, the Marie-Clarac Hospital Foundation has helped maintain the quality of services provided to patients through the purchase of equipment and funding of various innovative projects and services, including:

- Contribution to the financing of the construction of the palliative care pavilion;
- Funding of massage therapy care for end-of-life patients;
- Free cable television service for all patients

To date, thanks to generous donors, the Foundation has been able to invest over \$30 million in Hospital projects.

Together, we help restore autonomy to those who have lost it and provide support to patients and their families at the end of life.

Last year, the foundation launched a specific campaign to fund the replacement of all outdated hospital beds, which are often irreparable when damaged, to ensure the well-being of patients.

We are now in the second phase of the project.

We sincerely appreciate your generosity and continued support!

PROJECT REPLACEMENT OF BEDS

OOK SNOW hospital beds, made in Quebec, stand out for their 360-degree design, aimed at fall and infection prevention. These low-profile beds were designed with input from hundreds of healthcare professionals to better meet the needs of users.

NEW HIGH-PERFORMANCE BED

FALL PREVENTION

The OOK SNOW's low profile is rigorously designed to prevent falls. Its integrated bed-exit detection system helps reduce fall risks by alerting staff, allowing them to respond quickly.

HIGH-PRECISION INTEGRATED SCALE

The fully integrated weighing system is among the most precise available, allowing patient weight monitoring without disruption.

USER-FRIENDLY DESIGN

The new bed is intuitive and developed with the user in mind. The simple, standardized interface allows staff to save time and focus on patient care.

INFECTION PREVENTION & CONTROL

Hidden cables, seamless smooth surfaces, and an open design facilitate cleaning. These features save time while adhering to disinfection protocols.

PATIENT COMFORT & DIGNITY

The OOK SNOW bed enables patient care while promoting autonomy and satisfaction. Its aesthetics, high-quality materials, and advanced features preserve patient dignity.

MARIE-CLARAC HOSPITAL AT THE HEART OF YOUR NEEDS

Under the leadership of Sister Martine Côté, Marie-Clarac Hospital is a private, publicly funded general and specialized healthcare facility. Its mission is to provide high-quality rehabilitation and palliative care centered on the patient and their loved ones.

INTENSIVE & MODERATE FUNCTIONAL REHABILITATION

At Marie-Clarac, a dynamic team encourages rehabilitation patients to actively participate in their care plans and decision-making, helping them regain their independence.

PALLIATIVE CARE

The Mère Anselme-Marie Pavilion houses the Oasis de Paix, a palliative care unit that welcomes individuals at the end of life. Its mission is to ensure that everyone has access to high-quality end-of-life care, delivered with compassion and respect. Recognized as the largest palliative care unit with 36 rooms, the Oasis de Paix is more than just a place—it is a sanctuary designed to provide patients with the medical support they need to experience their final moments in a warm and dignified environment, surrounded by their loved ones. The goal is to create a haven of comfort, reassurance, compassion, and support, where each individual can find peace and tranquility during this delicate stage of life.

TOGETHER, BRINGING WELL-BEING AND SERENITY WITH DEVOTION AND HUMANITY

This is the promise that all staff, physicians, and volunteers at Marie-Clarac Hospital make to every patient and their family.

- Each year, Marie-Clarac Hospital welcomes approximately 2,000 patients.
- Since the creation of the palliative care unit, nearly 2,000 individuals have benefited from this Oasis de Paix.

Marie-Clarac Hospital has received accreditation with “Mention”, recognizing its ongoing efforts to provide high-quality care.
